

Trade together. Profit more.

## The Problem

### Unprofessional & risky trading signals

Many signal providers give inaccurate and risky trading signals.

### Incomplete package of trading services

- Many providers do not provide:
- automated forex trading in user's MT
- automated risk management tools
- transparent and real live trading stats
- full trading services package

### Expensive price for trading services

Users pay expensive premium membership fee only for some features, not for full trading services package.

### Inefficient communication way

Many signal providers use uncomfortable and inefficient communication way to users: via Email, Whatsapp, Telegram etc.

## The Solution

### Full trading services package for affordable price

ForexTeam app provides users full trading services package for affordable monthly fee.

Our services:

- automated forex trading to user's Metatrader account
- automated risk management tools
